I am a passionate and dedicated software developer with a Bachelor's degree in Computer Science and three years of academic and hands-on experience in web development. My technical skill set includes React, HTML, CSS, Spring Boot, and Spring Security, allowing me to build both dynamic front-end interfaces and secure, scalable back-end systems. I have actively participated in hackathons, where I collaborated in high-pressure environments to create innovative solutions. I'm continuously learning and eager to contribute to impactful software projects.

Education

Bachelor in in Computer Science at Université Abdelhamid Mehri Constantine 2, Constantine

September 2022 - June 2025

Grade: A

Skills

Frontend: HTML, CSS, Javascript, React, Tailwind css
